Day in the Life of a Student

Choose your own adventure

Want to see all of the options now? Hop to the end of the day to see all of your options.

Pit-Stop Café

One of three non-dining hall eateries that we have on campus, the Pit-Stop Café is a popular spot for study breaks and catching up with an old professor. Aside from the typical coffee and pastries, the Pit-Stop also has boba, fresh fruit smoothies, salads, and more!

Pit-Stop Café
The Grove House
Shakedown Café

That was a great pitstop. The smoothies are my favorite. Where to next?

Look at the time! You have to see your thesis advisor

Let's go to The Village and grab a bit to eat

End of Day Recap

Thank you for joining us for a day in the life of a Pitzer student! You can start another day and choose a new adventure or check all of them out below!

Start your day again and choose a new path

Go to your first class.

Grab food at McConnell.

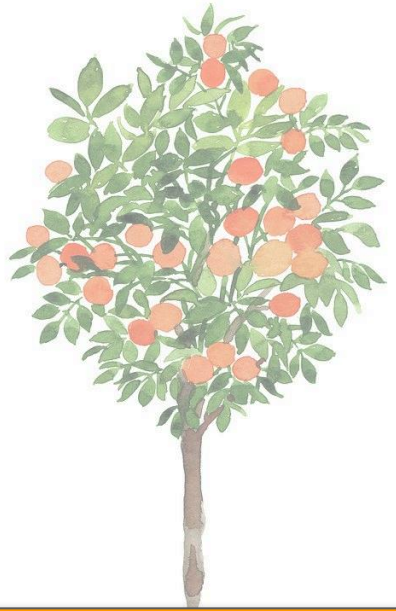

Don't miss your Career Services Appointment!.

Meet with your professor

Lobby TV

- Leveraging ChatGPT
- Adding CSS and Javascript
- Add Transition to Slides

To add a slide transition effect to this code, you can use CSS transitions. Here's an example of how you can modify the CSS code:

```php
<style type="text/css">
  .mySlides {
    display: none;
    transition: opacity 1s ease-in-out;
  }

  .mySlides.show {
    display: block;
    opacity: 1;
  }
</style>
```

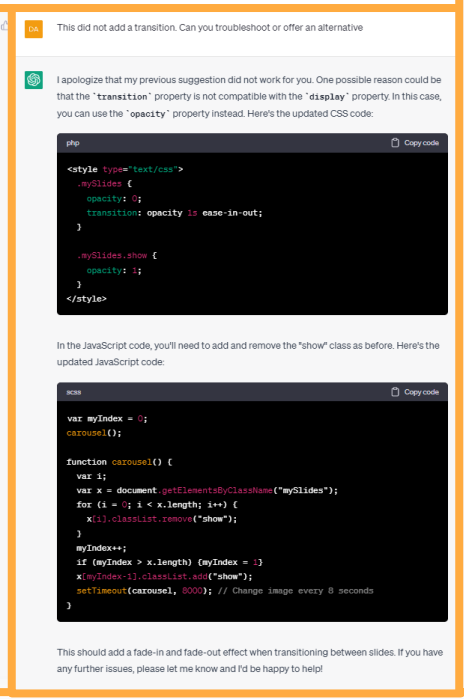

Then, in the JavaScript code, you need to add and remove the "show" class to the slide elements. Here's the modified JavaScript code:

```scss
var myIndex = 0;
carousel();

function carousel() {
  var i;
  var x = document.getElementsByClassName("mySlides");
  for (i = 0; i < x.length; i++) {
    x[i].classList.remove("show");
  }
  myIndex++;
  if (myIndex > x.length) {myIndex = 1}
  x[myIndex-1].classList.add("show");
  setTimeout(carousel, 8000); // Change image every 8 seconds
}
```

This code will add a fade-in and fade-out effect when transitioning between slides. You can adjust the duration and timing function of the transition by modifying the values in the `transition` property.

Regenerate response

This did not add a transition. Can you troubleshoot or offer an alternative

I apologize that my previous suggestion did not work for you. One possible reason could be that the `transition` property is not compatible with the `display` property. In this case, you can use the `opacity` property instead. Here's the updated CSS code:

```php
<style type="text/css">
  .mySlides {
    opacity: 0;
    transition: opacity 1s ease-in-out;
  }

  .mySlides.show {
    opacity: 1;
  }
</style>
```

In the JavaScript code, you'll need to add and remove the "show" class as before. Here's the updated JavaScript code:

```scss
var myIndex = 0;
carousel();

function carousel() {
  var i;
  var x = document.getElementsByClassName("mySlides");
  for (i = 0; i < x.length; i++) {
    x[i].classList.remove("show");
  }
  myIndex++;
  if (myIndex > x.length) {myIndex = 1}
  x[myIndex-1].classList.add("show");
  setTimeout(carousel, 8000); // Change image every 8 seconds
}
```

This should add a fade-in and fade-out effect when transitioning between slides. If you have any further issues, please let me know and I'd be happy to help!

That transition worked but now my next slide shows up under my first slide

It sounds like the issue might be related to the positioning of your slides. You can try adding `position: absolute` to the `.mySlides` class, which will position each slide absolutely within its containing element. Here's the updated CSS code:

```php
<style type="text/css">
  .mySlides {
    position: absolute;
    opacity: 0;
    transition: opacity 1s ease-in-out;
  }

  .mySlides.show {
    opacity: 1;
  }
</style>
```

You may also need to add some additional CSS to your container element (e.g., a div) to ensure that it has the correct positioning and dimensions to properly contain your slides. For example, you can add `position: relative` to the container element, and set its height and width as necessary. Here's an example:

```php
<style type="text/css">
  #container {
    position: relative;
    height: 300px;
    width: 800px;
  }

  .mySlides {
    position: absolute;
    opacity: 0;
    transition: opacity 1s ease-in-out;
  }

  .mySlides.show {
    opacity: 1;
  }
</style>

<div id="container">
  {% for result in visitors %}
    <div class="mySlides">
      {{result.name | snippet: "lobby_tv"}}
    </div>
  {% endfor %}
</div>

<script>
  var myIndex = 0;
  carousel();

  function carousel() {
    var i;
    var x = document.getElementsByClassName("mySlides");
    for (i = 0; i < x.length; i++) {
      x[i].classList.remove("show");
    }
    myIndex++;
    if (myIndex > x.length) {myIndex = 1}
    x[myIndex-1].classList.add("show");
    setTimeout(carousel, 8000); // Change image every 8 seconds
  }
</script>
```

Adjust the height and width of the `#container` element to fit your specific needs.

Feedback Form

Demonstrated Interest

What does this mean to you?
Someone who is very engaged and taking actions that show interest?
Am I missing an element to this? Is there a 'good DI' that you want to see versus 'bad DI'

What actions should be added to this score? (They opened an email, they came for a campus tour, etc.?) How important are they?

How high should the scale go?
- 100-pt scale (more standardized, but would require re-balancing values of behaviors if we change what we include)
- Open-Ended with no "max score" (easier to build, but hard to see what is a "high" score by just looking at a score)
- Other

How high should the scale go? - Other

How heavily should the following behaviors be weighted?
I will treat your number like a % out of 100 (e.g. In-Person: 80%, Emails Opened: 20% = 100%)
Please put a '0' if it should not be in the score
You can view my current scoring here - https://connect.pitzer.edu/manage/query/build?id=36169d87-dfda-4903-93a8-0dd182dcd659

Multiple Opportunities

In-Person Event Max Points

- In-Person Event: How many points per event?

Slate Deliver

Hi all,

A quick update. I have started work on the Demonstrated Interest Score
You can view the work in progress here (but please do not edit) - https://connect.pitzer.edu/manage/query/build?id=36169d87-dfda-4903-93a8-0dd182dcd659

I have added questions to my questionnaire including how much "weight" the behaviors should have and how high the score should go

To continue our discussion about a Demonstrated Interest Score (aka Engagement Score/Affinity Score)

My thought is 3 new fields in Slate:

- Demonstrated Interest
  - Scored based on values per action
- Likelihood to Apply
  - Evaluated with Regression
- Likelihood to Commit
  - Evaluated with Regression

Are there any particular variables you would like added to the score? They opened an email, they came for a campus tour, etc.? Please complete this survey to provide your thoughts. I will follow up in late July with additional details and questions once I chat with some other institutions.

Sociology

The Sociology Field Group (our name for "departments") is a dynamic, diverse, and distinctive group of faculty, students, and alumni. We take pride in our teaching, devoting attention to students' learning, developing ways of integrating students in community programs and research experiences.

The sociology major is designed to help students develop an understanding of and an appreciation for the principal sociological perspectives, theories and research methodologies of the discipline. Sociologists study people and their relationships in social and cultural contexts, as well as analyze those social institutions and structures of power involved in the shaping of human experience.

Pitzer College offers over **40 majors and 20 minors**. Science classes are offered through **Keck Science Department**, a shared resource with Scripps College and Claremont McKenna. You can also work with faculty to **design your own special major**.

Sociology majors are often also interested in the following Field Groups. Read more about them now:
Anthropology
History
Philosophy

Research

At Pitzer, students are encouraged to get involved with research early on in their college careers, either with faculty on campus, or off campus through programs like REU, funded by the National Science Foundation. **Read more** of the most common research grants and opportunities afforded to Pitzer students!

Pitzer faculty are also active in **writing books** and **conducting their own research**.

Faculty-in-Residence

Faculty-in-Residence (FIR) are selected faculty who live in the residence halls with their families. The FIR program bridges the academic and Residence experiences in a seamless living/learning environment by integrating Pitzer faculty members into the Residence experience and facilitating their active participation in student learning. The FIR will sponsor a wide range of activities designed to enhance the intellectual, social, and civic development of students living on the Pitzer campus. The FIR helps plan and implement educational, recreational, artistic, social and cultural programs while serving as a role model, mentor, adviser, teacher, and leader in the Residence community.

Student Timeline

Your Freshman Year
Welcome to Pitzer College! There is a lot of freedom at Pitzer. But this means it is really important for you to make good decisions, and good decisions depend on good information. Your academic adviser is here to help provide good information. When they don't know the answer to your questions, they will know how to find the answers.
Read More

Your Sophomore Year
During your sophomore year, several general education requirements should already be complete. Courses can double or even triple count across designated sections, but not within. You should also take some introductory courses in areas of a possible major. As you continue in your Pitzer career, you will focus more on courses in your major and other areas of interest.
Read More

Your Junior Year
During your Junior year, you should be completing intermediate coursework in your major and beginning some advanced coursework. You should continue to work on (and continuously evaluate) your academic and personal goals. And you should be thinking about your path after graduation.

Talk with your major adviser about how to get the most out of your major experience.
Read More

Your Senior Year
Assuming you have completed all your general education requirements, you should be delving into advanced coursework and making room for elective courses that you always wanted to take. You should continue your preparations for the transition into life beyond Pitzer, whatever that may hold. You should enjoy your final two semesters, and finish strong.

Applicant Status Page

Each applicant assign a staff member based on their School location.
Deliver Snippet to create a bio and video for each of our counseling team

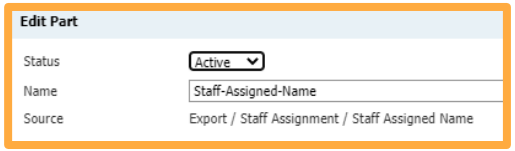

If the applicant does not have a staff assigned or there is not a Snippet for the value, they will get the 'default' value

Applicant Status Page

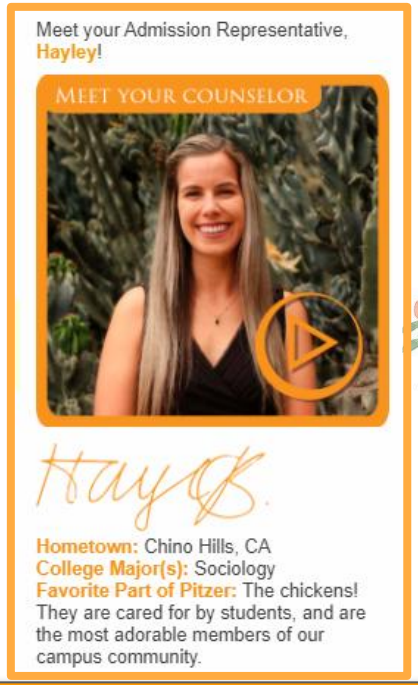

By adding the appropriate export to the Portal's Query

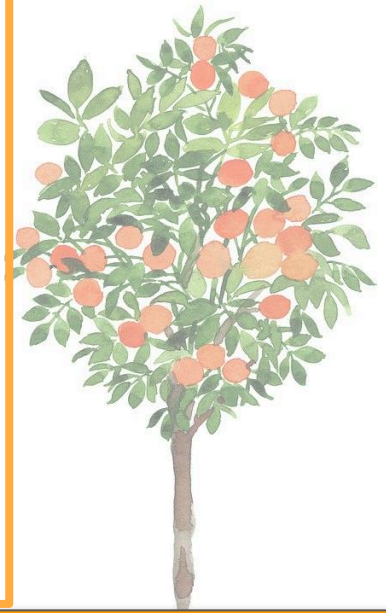

And something like this to the portal

{% if {{Staff-Assigned-Name}} != '' %}Meet your Admission Representative, **{{Staff-Assigned-First}}**!
{% endif %}{{Staff-Assigned-Name | snippet: "counselor_connect"}}

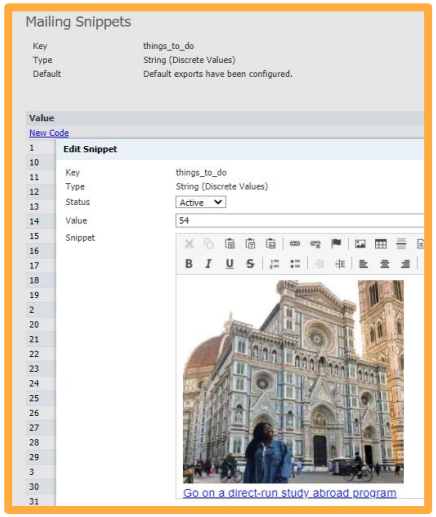

You get a custom bio for the applicant

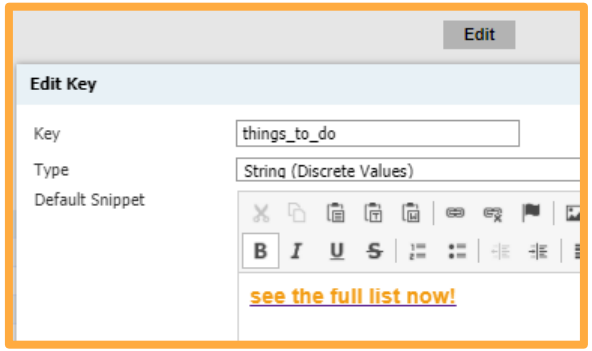

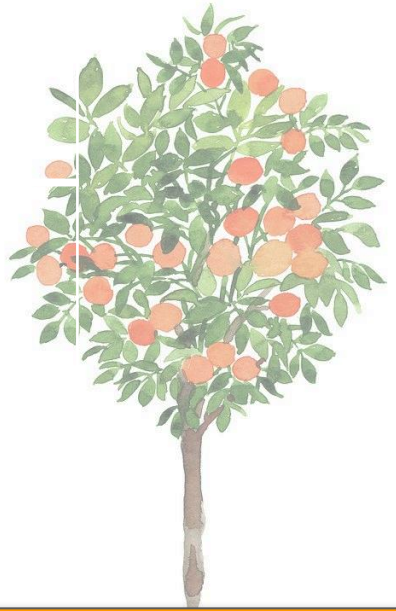

Applicant Status Page

We have a ‘63 Things To Do be Graduating’ promotional material
Displaying a random one on the Applicant Status Page. Snippets should be named/Value of numbers

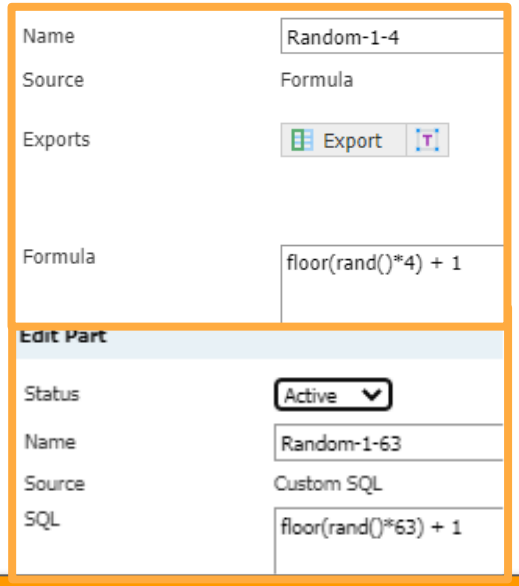

While building the content and in case something breaks, including a ‘Default’ that link directly to pdf

Applicant Status Page

By adding the appropriate formula to the Portal's Query. This gives a number between 1 and 63 (the number of Content Blocks)

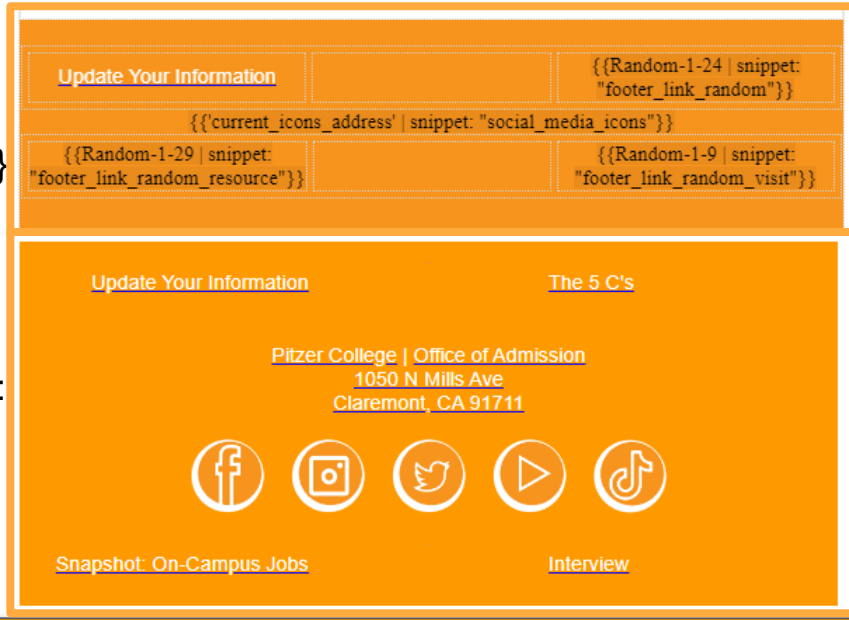

And something like this to the portal

Excited to become a Sagehen?
Here's #{{Random-1-63}} of the 63 things every Pitzer student should do before they graduate

{{Random-1-63 | snippet: "things_to_do"}}
Come back later to learn about another (**or see the full list now!**)

Email Footer

Applicant Status Page

You get a custom piece of content for the applicant

It displays what # out of 63 and the picture, text, and links from the Content Block

Study Abroad is a favorite and prominent feature at Pitzer, so we link to a student write-up of their trip to Italy as well as other profiles

Excited to become a Sagehen?

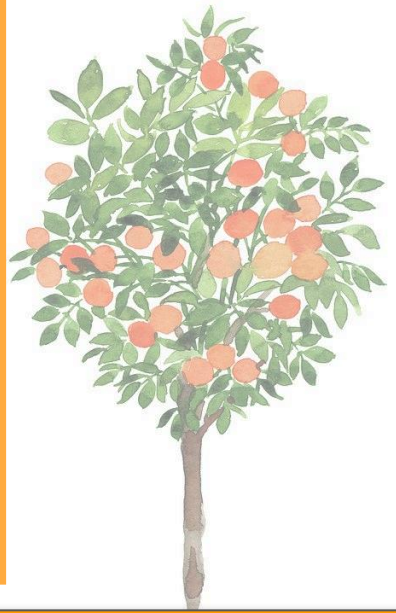

Here's #54 of the 63 things every Pitzer student should do before they graduate

Go on a direct-run study abroad program

Come back later to learn about another

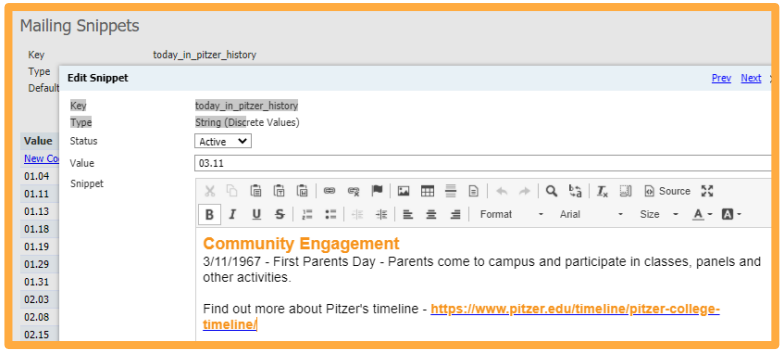

(or see the full list now!)

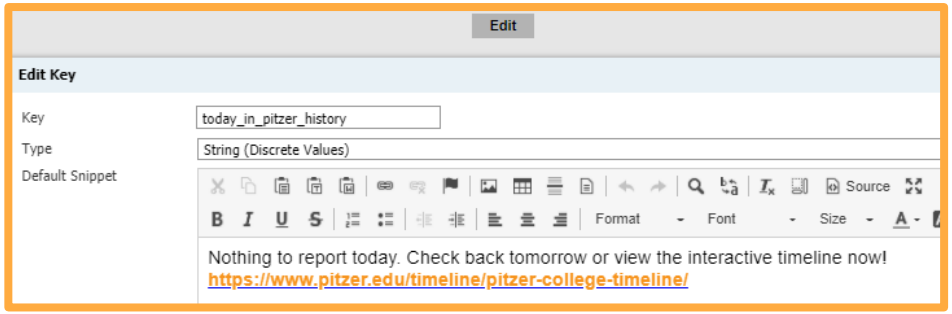

Applicant Status Page

We have a Timeline of notable events
Name/Value must match the date format of your Portal query. Do not include years

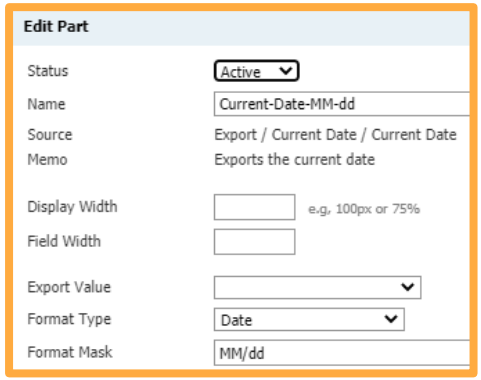

For days that do not have a notable event, we have 'Default' that links to a webpage with the information

Applicant Status Page

By adding the appropriate formula to the Portal's Query. This gives the current date in a format that matches the Snippet Values

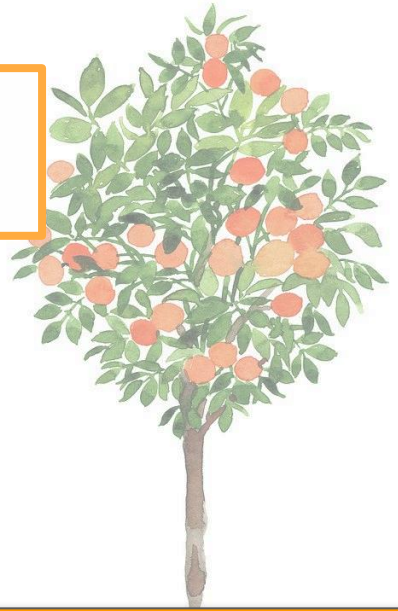

And something like this to the portal

Today in Pitzer History
{{Current-Date-History-MM-dd | snippet: "today_in_pitzer_history"}}

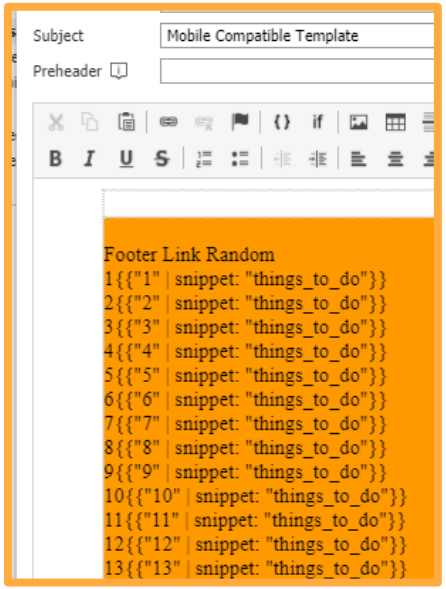

You get a custom bio for the applicant

Today in Pitzer History
Nothing to report today. Check back tomorrow or view the interactive timeline now!
https://www.pitzer.edu/timeline/pitzer-college-timeline/

First-Year Seminar Placement

First-year seminars are writing-intensive courses of 14-16 students each that introduce intr
academic life of Pitzer College. As such, the professors choose topics that interest them ar
will discuss and write. Most faculty incorporate co-curricular learning activities and students
participate in field trips, lectures or other class activities outside of scheduled class times. T
of any major and are not necessarily "introductions" to any given field or major. They are de
to all students, regardless of background.

Incoming students will be asked to indicate their preferences for their first-year seminar. Th
given first-year seminar will also serve as their students' faculty adviser for the first three or
student declares a major. Students develop strong mentoring relationships with faculty and
understanding of how the curriculum intersects with their individual educational goals.
